Cryptography: Technologies for
Securing Data and Communications

Himamshu S

Front-End Web Developer | PWA developer | Public Speaker |
Hobbyist Flimmaker | Fast Learner | Open to Growth & New Tech
Mangaluru, Karnataka, India

Summary

I'm a passionate Front-End Web Developer and a PWA developer
with strong communication skills, excellent command of English, and
a flair for literary expression. I love crafting elegant, responsive, and
user-focused websites using HTML, CSS, and JavaScript, and I'm
steadily building my skills in backend technologies as well.

A fast learner and an adaptable problem solver, I thrive in dynamic
environments and enjoy exploring new tools, frameworks, and
design patterns. My creative background complements my technical
side, helping me write clean code while keeping user experience at
the heart of everything I build.

I'm currently open to learning opportunities, collaborations, and
projects where I can grow, contribute meaningfully, and sharpen my
front-end and full-stack development abilities.

Let's connect if you're looking for someone enthusiastic, skilled, and
ready to evolve with the tech landscape.

Experience

Canara Students - Open Source Community
Core Committee Member
September 2025 - Present (1 month)
Mangaluru, Karnataka, India

As a core committee member, I play a key role in fostering a vibrant
open-source culture and enhancing technical skills among my peers. My
responsibilities include:

Event Management & Coordination
I'm responsible for planning and executing a wide range of technical and skill
enhancement events, including workshops, seminars, and training sessions. I

coordinate with team members, speakers, and faculty to ensure seamless and impactful events.

Mentorship & Knowledge Sharing
I act as a resource person for juniors, providing training and mentorship on various technical topics. I lead sessions and offer guidance to help them navigate their learning journeys and contribute to open-source projects.
Contest & Talk Organization
I organize technical contests and talks, designing challenges for coding competitions and securing speakers for expert talks. These events provide a platform for students to test their abilities, learn from industry professionals, and engage in healthy competition.

Education

Canara Engineering College
Bachelor of Engineering - BE, Computer Science · (September 2024 - September 2028)
